"ACCOMMODATE, DON'T TERMINATE"

TO THE RESIDENTS OF THE
LIBERTY CENTRAL SCHOOL DISTRICT

If your employer caused your disability, would you expect accommodations or termination?

Angie Page suffers from toxic mold poisoning caused by working in a leaky and wet environment at the Liberty Middle School.

Despite viable options that would accommodate her disability and allow her to do productive work for the district, the Board of Education has plans to terminate Ms. Page. This is a long and COSTLY procedure.

Please attend the Board Of Education meeting on Monday, March 12th at 7:00 pm in the Liberty High School Cafeteria to demand that they "Accommodate, nor terminate!"

Paid for by the Liberty Faculty Association
